

Campden Wealth Events 2016

Campden Wealth Events is a global leader in providing private forums for significant business and financial families, and their private offices.

OVERVIEW

Our Family Office Conferences are widely accepted as the leading annual gatherings for private family offices across Europe and beyond. The networking opportunity for families to meet other families of significant wealth is unrivalled.

The events are exclusively for significant private investors, business and financial families and their private offices to discuss issues including; how to set up a family office, what services should be performed within the family office, the role of the family office in supporting the family and transferring ownership of the office down the generations.

WHO SHOULD ATTEND?

Registration is restricted to senior family office executives of single or private multi-family offices, members of significant business and financial families and private investors. The only attendees from outside this group are a small number of the speakers and a limited number of partners.
